

I am very concerned that the FCC's proposal will diminish the effect of Indiana's Telephone Privacy law. Indiana's law has been very effective, and has improved our quality of life at home. We used to receive dozens of unwanted calls each week, often at meal times. Now we hardly get any, and it has been wonderful. Indiana's law works, and I would hate to see any new federal law lessen it's effectiveness. Thank you for listening to my concern.
